Thanks John! I think MI-DEP will be able to access it, but I'm not sure what procedure they would use.

Chuck

Hi Chuck-

I sent everyone involved an email link to this share folder to put project related docs in:

## Ex. 6 - Personal Privacy

Hope this helps.

John

**Subject:** RE: Heads up on Wolverine incoming

Thanks Carolyn. Unless urgent/crucial or otherwise requested, I intend to leave John off.

Is FTP the way to go for large files? SharePoint?

FYI: I'm taking A/L all next week.

Chuck

Hi Chuck,

Thanks for asking good questions. I will stay tuned for more information and clarification.

Just want to let you know, Ex. 6 - Personal Privacy I don't mind spending a little time if it is urgent or especially useful to Michael. Please contact John if something like this comes up. I will be back on Jan 2.

Looking forward to more work with you. Best wishes,  
Carolyn

**Subject:** FW: Heads up on Wolverine incoming  
**Importance:** High

Michael is wanting evaluation of sampling information regarding the State Disposal Landfill where some of the wastes from the Wolverine Tannery were deposited. I am alerting you right away and have not committed to anything as these will be your decisions. See below his request and my counter requests for clarification.

**Subject:** RE: State Disposal Landfill - GW data

Hi Michael,

I will check with Cincinnati regarding their availability and a FTP site. Also, I have some questions/clarifications. How quickly do you need to have the information evaluated and in how much detail, i.e., are you wanting a quick, 70,000 feet evaluation or are you wanting a deeper dive? Additionally, isn't Larry Z looking at some of this information? Shouldn't we coordinate with him so we're not duplicating efforts and so we can optimize who best to evaluate what?

Thanks, Chuck

Do you have an FTP site, the semi annual reports are quite large. I am out of the office but can send on Monday.

**Subject:** State Disposal Landfill - GW data

Judith,  
Could you send me any and everything you have related to the sampling for PFAS substances at SDL? This includes QAPPs, lab reports and things like that. I want to run it all by EPA lab people. Chuck Maurice will be helping us with this tool.  
Thanks,  
Michael
